### Shaping The Future Of Mobility

With its carefully crafted protective canopy designed to optimise usage in all weather conditions the Sun Rider stands out from the crowd. Its assertive design is complemented with a refined blend of performance and luxury making it our most advanced, efficient and refined scooter ever.

### Protect Yourself From Harmful UV Radiation

The new optional multi-purpose side curtains can be installed in seconds providing you with the choice of all weather protection, flow through ventilation and UV protection or a combination of all. Simply roll up the door or rear side panels to suit the weather conditions.
